CARES

CARES™ Child Aviation Safety Restraint

Moms and Dads who travel by air may want to invest in the CARES (Child Aviation Restraint System) harness. The harness is made especially for airplanes, and is the only restraint certified by the Federal Aviation Administration. It's a lot more portable than dragging your car seat aboard that commuter jet, and it leaves your hands free to deal with any child-induced turbulence.

Available at [BuyBuy Baby](#), the CARES system retails for \$74.99.
