BABY MUST- HAVES

GIZMOS & GADGETS

If you travel by plane a lot and your child is at least a year old, you might want to invest in CARES (\$75, including an instructional DVD: kidsflysafe.com), a harness that attaches directly to the airplane seat belt (see below). It's approved by the Federal Aviation Administration for kids who weigh 22 to 44 pounds (around 1 to 4 years old).
